Re: U.S. EPA Approval – JFOS Stage 2 Construction Work Plan CMP Removal, Jorgensen Forge Outfall Site, Lower Duwamish Waterway Superfund Site, Seattle, Washington

Dear Mr. Dyer and Mr. Ernst:

The US Environmental Protection Agency (EPA) has reviewed the latest revision of the Jorgensen Forge Outfall Site Stage 2 Construction Work Plan for the CMP Removal (Construction Workplan). All EPAs comments and concerns have been addressed and EPA is hereby approving the Construction Workplan. EPA also expects that the Construction Workplan will be provided to any new contractor used by the Respondents.

EPA is further reminding the Respondents that by March 1, 2017, a proposed start date for the JFOS CMP Shored Area Removal Action needs to be provided to EPA along with a proposed work schedule that includes the pre-construction meeting that will be required before a Notice to Proceed for the Removal Action from EPA will be given. All contracting issues will also need to have been resolved by both parties by that time.

Should you have any questions, I can be contacted at [sanga.ravi@epa.gov](mailto:sanga.ravi@epa.gov) or 206-553-4092. Inquiries of a legal nature need to be addressed to Richard Mednick at [mednick.richard@epa.gov](mailto:mednick.richard@epa.gov) or 206-553-1797.

Sincerely,

A handwritten signature in blue ink, appearing to read "Ravi N. Sanga".

Ravi N. Sanga  
Remedial Project Manager  
Site Cleanup Unit 3
